DETAILED ACTION

Allowable Subject Matter

1. Claim 1 is allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or suggest the apparatus claimed by Applicant. The best prior art of record, US 2002/0110485 to Stringer, comprises a cardiopulmonary bypass circuit with a pump, filter, venous cannula, and blood degassing apparatus with pump, but does not provide a second pump, separate from the blood degassing pump, in the circuit. The prosecution history clearly indicates that the instantly claimed pump imparts significant rotational motion to the blood in the chamber, while using a second pump to provide linear motion. The Stringer device uses a single pump for both rotary and linear motion, and is incapable of achieving the rotational speeds disclosed by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
